Minutes of 3 February 2025

The Minutes of 3 January 2025 were agreed as a correct record.

Non-designated Heritage Assets

Following on from the discussions at the February meeting, Ruth confirmed that Mill House would not now be included in the list of non-designated heritage assets. In the light of the debate it was also agreed to clarify the references to South Farm Cottages and to make a number of further textual changes.

Stephen undertook to produce a revised version of this section and to forward a copy onto NCC to enable them to complete the HRA.

SEA update

It was reported that the AECOM scoping document had been sent to the statutory consultees who had until 4 April to respond. In the light of responses received AECOM would then produce the SEA report hopefully by the end of April.

Date of next meeting

To be arranged as soon as the SEA report has been made available.
